

# Home Care Can Help With **PARKINSON'S** DISEASE

Parkinson's Disease is a brain disorder that causes tremors, stiffness, slow movements, balance and coordination issues.

Caregiver support can help with activities of daily living such as bathing, meal preparation, transportation, and much more.

***Call us today to find out more about professional home care services.***

## ***Are you a Wartime Veteran or Surviving Spouse?***

If so, you could be eligible for a VA benefit of up to **\$31,714** allowing you to age independently in your own home. We are a **Proud Partner of Veterans Care Coordination®** and help families learn more about the VA benefit Pension with Aid and Attendance that may help pay for home care services.

Veterans Care Coordination, LLC is not associated with any government agency. Veterans Care Coordination, LLC cannot offer legal advice or guarantee eligibility for monetary compensation or the Aid and Attendance Pension.

We are a healthcare based organization.
